Report on the progress made in attaining the goals of the wellness policy (REQUIRED):

The Wellness Committee in Bristol Township School District continues to collaborate with our faculty and school community. We realize that family and community involvement is necessary to enhance the well-being of students. We aim to create awareness of healthy foods, promote physical activity, and encourage our students and their families to adopt healthy eating as a daily practice, with the hope of achieving the lasting goal of a healthy lifestyle.

Our Wellness Committee consists of representatives from each building, our Food Service Director, health personnel, and physical education teachers. Community members are also invited to our quarterly meetings.

At our meetings, we reflect on proposed changes and the progress that has been made throughout our district. Each member has the opportunity to discuss what their buildings are doing to promote wellness, as well as, collaborate with others in an effort to see how they can improve what is currently being done at their locations.

Our mission is to establish goals for, and to oversee, school health and safety policy programs. This includes the development, implementation, and periodic review and update of the district-wide Wellness Policy.
